

ABERDEEN CITY COUNCIL

COMMITTEE	Net Zero, Environment and Transport Committee
DATE	7 March 2023
EXEMPT	No
CONFIDENTIAL	No
REPORT TITLE	Cluster Risk Registers and Assurance Maps
REPORT NUMBER	RES / 23 / 059
DIRECTOR	Steve Whyte
CHIEF OFFICER	Mark Reilly
REPORT AUTHOR	Mark Reilly
TERMS OF REFERENCE	9

1. PURPOSE OF REPORT

- 1.1 To present the Cluster Risk Registers and Assurance Maps in accordance with Net Zero, Environment and Transport Committee Terms of Reference to provide assurance that risks are being managed effectively within each Cluster.

2. RECOMMENDATION

That the Committee:-

- 2.1 Note the Cluster Risk Registers and Assurance Maps set out Appendices A and B.

3. CURRENT SITUATION

- 3.1 The Audit, Risk and Scrutiny Committee is responsible for overseeing the system of risk management and for receiving assurance that the Extended Corporate Management Team (ECMT) are effectively identifying and managing risks. Reviewing the strength and effectiveness of the Council's system of risk management as a whole is a key role for the Committee.
- 3.2 The Risk Management Policy Framework states that all other committees should receive assurance on the risk management arrangements which fall within their terms of reference. This is provided through the risk register for the Operations and Protective Services Cluster which falls within the remit for this Committee.

Risk Registers

- 3.3 The Council's Risks Registers are tools used by Functions and Clusters to capture and manage the risks which could prevent achievement of organisational outcomes and service delivery.
- 3.4 The Council's Corporate Risk Register (CRR) captures the risks which pose the most significant threat to the achievement of the Council's organisational

outcomes and have the potential to cause failure of service delivery. The CRR scrutinised annually by the Audit, Risk and Scrutiny Committee.

- 3.5 The Cluster Risk Registers are set out in appendices A and reflect the risks which may prevent the Cluster from delivering on organisational outcomes and services, these risks may be escalated to the CRR where deemed necessary.
- 3.6 The risks contained within the Risk Register are grouped below by risk category in and show the Council’s corresponding risk appetite for each category as set within the Council’s Risk Appetite Statement (RAS) which was approved by the Audit, Risk and Scrutiny Committee in February 2022.

The Cluster is working towards a target risk score which aligns with the risk appetite.

Risk Category	Risk Title	Target Risk Appetite	Aligned with RAS ?
Climate/Environmental	Climate change – Tree Disease	Averse	Yes
Compliance	Loss of Operator’s Licence	Averse	Yes
Compliance	Loss of United Kingdom Accreditation Service (UKAS) Accreditation	Averse	Yes
Climate/Environmental	Sea Defence Failure	Open	No
Strategic	Waste Disposal Failure	Averse	Yes

- 3.7 The Cluster Risk Register provides the organisation with the detailed information and assessment for each risk identified including.

- **Current risk score** – this is current assessment of the risk by the risk owner and reflects the progress percentage of control actions required in order to achieve the target risk score.
- **Target risk score** – this is the assessment of the risk by the risk owner after the application of the control actions. This is aligned with the risk appetite for this particular category of risk.
- **Control Actions** – these are the activities and items that will mitigate the effect of the risk event on the organisation.
- **Risk score** – each risk is assessed using a 4x6 risk matrix as detailed below.

The 4 scale represents the impact of the risk and the 6 scale represents the likelihood of the risk event.

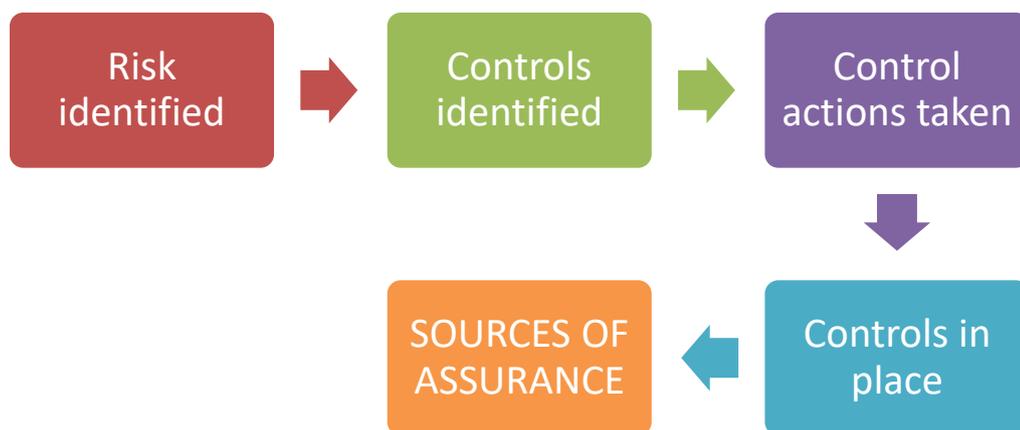

Impact	Score						
Very Serious	4	4	8	12	16	20	24
Serious	3	3	6	9	12	15	18
Material	2	2	4	6	8	10	12
Negligible	1	1	2	3	4	5	6
Score		1	2	3	4	5	6
Likelihood		Impossible	Almost Very Low	Low	Significant	High	Very High

3.8 Development and improvement of the Cluster Risk Register and associated risk management processes has continued since the Cluster Risk Register was last reported to the Operational Delivery Committee on 18 November 2021:

- The Council’s Risk Appetite Statement (RAS) was reviewed and updated.
- “Managing Risk” pages were published on the Council’s intranet pages which contains information and links for officers and elected members on the Council’s RAS, Risk Management Policy, Guidance and Training.
- Training was provided to officers on the updated Committee Report Template risk sections that were reviewed and updated to reflect RAS.
- The Corporate Risk Lead has continued to provide support to Risk Owners and Managers to review and update Risk Registers to improve monitoring and reporting across the organisation.

Assurance Maps

3.9 The Risk Registers that are reviewed by the Council’s Committees list the risks identified within each of the relevant Functions and Clusters and provides detail of the risk, the potential impact and consequence of the risk materialising and the control actions and activities required to management and mitigate the risk. Assurance Maps provide a visual representation of the sources of assurance associated with each Cluster so that Committee can consider where these are effective, following the completion of control actions. Presentation of the Cluster’s Assurance Map provides full sight of the defences that the organisation has in place to manage the risks facing local government.

3.10 The Assurance Map provide a breakdown of the “three lines of defence”, the different levels at which risk is managed. Within a large and complex organisation like the Council, risk management takes place in many ways. The Assurance Map is a way of capturing these and categorising them, thus ensuring that any gaps in sources of assurance are identified and addressed:

First Line of Defence “Do-ers”	Second Line of Defence “Helpers”	Third Line of Defence “Checkers”
The control environment; business operations performing day to day risk management activity; owning and managing risk as part of business as usual; these are the business owners, referred to as the “do-ers” of risk management.	Oversight of risk management and ensuring compliance with standards, in our case including ARSC as well as CMT and management teams; setting the policies and procedures against which risk is managed by the do-ers, referred to as the “helpers” of risk management.	Internal and external audit, inspection and regulation, thereby offering independent assurance of the first and second lines of defence, the “do-ers” and “helpers”, referred to as the checkers” of risk management.

Risk Overview

3.11 The Cluster Risk Register has reduced by one risk since the Cluster Risk Register and Assurance Map was reported at the Operational Delivery Committee on 18 November 2021. The risk was concerning the renewal of the waste management contract by 2025. This risk was mitigated and subsequently closed by a later committee report to extend the current contract until March 2029 being approved.

The risks relating to "Climate Change - Tree Disease" and "Sea Defence Failure" have both seen the risk score reduced due to robust monitoring and maintenance by the relevant services. The other risks remain unchanged and

are being managed through monitoring, inspection, and regular audits to ensure that appropriate required statutory compliance is met.

4. FINANCIAL IMPLICATIONS

4.1 There are no direct financial implications arising from the recommendations of this report. This report deals with risk management at Cluster level and this process serves to identify controls and assurances that finances are being properly managed.

5. LEGAL IMPLICATIONS

5.1 There are no direct legal implications arising from the recommendations of this report. The Council's Risk Registers serve to manage many risks with implications for the legal position and statutory responsibilities of the Council.

6. ENVIRONMENTAL IMPLICATIONS

6.1 There are no direct environmental implications arising from the recommendations of this report.

7. RISK

7.1 There are no risks arising from the recommendations in this report. The Committee is provided with assurance that the risks presented within the Cluster Risk Register are those that may affect achievement of organisational outcomes and delivery of services for each Cluster are identified, appropriately managed and that the Council's activities are compliant with its statutory duties.

Category	Risks	Primary Controls/Control Actions to achieve Target Risk Level	*Target Risk Level (L, M or H) *taking into account controls/control actions	*Does Target Risk Level Match Appetite Set?
Strategic Risk	The council is required to have a management system in place to identify and mitigate its risks.	The council's risk management system requires that risks are identified, listed and managed via Risk Registers.	L	Yes
Compliance	As above.	As above.	L	Yes
Operational	As above.	As above.	L	Yes
Financial	As above.	As above.	L	Yes
Reputational	As above.	As above.	L	Yes
Environment / Climate	As above.	As above.	L	Yes

8. OUTCOMES

- 8.1 The recommendations within this report have no direct impact on the Council Delivery Plan however, the risks contained within the Council's risk registers could impact on the delivery of organisational outcomes.

9. IMPACT ASSESSMENTS

Assessment	Outcome
Integrated Impact Assessment	Not required
Data Protection Impact Assessment	Not required
Other	Not applicable

10. BACKGROUND PAPERS

- 10.1 None

11. APPENDICES

- 11.1 Appendix A– Cluster Risk Register Operations and Protective Services
11.2 Appendix B– Cluster Assurance Map
