

Hi

Can you please take this email as my request to be exempted from the Street knowledge test and WAV policy, I have been a taxi driver for almost 30 years with no complaints to my name and always represented Aberdeen in a courteous and professional manner. I only work 3 days per week as I am looking to retire in the near future and I do not have the financial means to justify a new WAV vehicle having just upgraded this year.

I must note that I never received an email regarding this issue in 2021, I did hand in the paperwork as I noted that I was not comfortable completing online paperwork and this was accepted by the office I do not have printing facilities etc. This is the first time it was mentioned as it's the first time I have responded to the issue, had I been advised or received the email in 2021 this would have been addressed at the time. I appreciate I am not the best with computers etc but I always endeavour to do this with support.

Kind regards
