

ABERDEEN CITY COUNCIL

COMMITTEE	Communities, Housing & Public Protection Committee
DATE	30 th May 2024
EXEMPT	No
CONFIDENTIAL	No
REPORT TITLE	Building Standards Activity Report
REPORT NUMBER	CR&E/24/155
DIRECTOR	Gale Beattie
CHIEF OFFICER	David Dunne
REPORT AUTHOR	Grant Tierney
TERMS OF REFERENCE	2.7 and 2.8

1. PURPOSE OF REPORT

- 1.1 To provide assurance and an overview of the Council's responsibilities in relation to securing dangerous buildings and protecting public safety, as well as activity on unauthorised building work and unauthorised occupation of buildings.

2. RECOMMENDATION(S)

That the Committee:-

- 2.1 Notes the contents of the report and appendix and
- 2.2 agrees to receive a further Building Standards Activity Report at the meeting of the Communities, Housing and Public Protection Committee on 21st November 2024.

3. Current Situation

- 3.1 Aberdeen City Council act as the verifier to administer the Building (Scotland) Act 2003 which is intended to secure the health, safety, welfare and convenience of persons in or about buildings and of others who may be affected by buildings or matters connected with buildings. In addition, the Building Standards team complete enforcement duties under the above Act with the

objective of protecting the public from harm caused by buildings. This report provides an update to the committee following a report to this Committee on 14th November 2023 which covered the reporting period of November 2022 to September 2023.

- 3.2 Details of formal and non-formal enforcement activity can be found in Appendix 1 relating to:
- Public safety and dangerous buildings
 - Unauthorised building work; and
 - Unauthorised occupation of buildings without a completion certificate

Where informal discussions with an owner do not result in a speedy resolution to remove a danger to the public, a Notice will be served to set a deadline for resolution for completion of any necessary work. Where the deadline is exceeded, the Local Authority can complete the necessary work and seek expenses from the owner.

During this reporting period, October 2023 – March 2024, there have been no major incidents requiring significant intervention by Building Standards for example, evacuation of a tenement building or fatal accident inquiry. Three notices were served during the period and two of these related to movement and fabric deterioration of rear stair blocks serving tenements at Holburn Street and King Street. The third notice required owners to address a defective boundary wall in Cove.

- 3.3 It should be noted that these activities do not have targets or performance measures as each case is dealt with in accordance with the Regulators Code of Conduct supported by the Building Standards Enforcement Charter.

4. FINANCIAL IMPLICATIONS

- 4.1 The costs of verification and enforcement activities undertaken are included in the Building Standards revenue budget. There are no increased financial implications in relation to on-going activities.

5. LEGAL IMPLICATIONS

- 5.1 There are no direct legal implications arising from the recommendations in this report.

6. ENVIRONMENTAL IMPLICATIONS

- 6.1 There are no direct environmental implications arising from the recommendations in this report.

For information – a Notice is principally served in 2 instances:

1. When negotiations seeking a speedy resolution to removing a danger have failed e.g. informal action
2. When a building has suffered a substantial incident and requires a higher degree of control to maintain public safety e.g. fire damaged.

Once a Notice is served, there is a statutory period of 21 days to allow an owner to appeal the notice. Thereafter, there is an expiry date by which the terms of the Notice must be met.

Building Standards site inspections have been maintained during the trial of hybrid working patterns, the provision of 24-hour emergency dangerous building call out which is deemed a critical service remains unaffected. Call outs are generated through the Regional Call Centre reacting to reports from members of the public or the emergency services of a potentially dangerous building. A suitably qualified officer responds by making a site visit and assessing any necessary action to secure public safety.

Building Standards staff continue to liaise with owners of buildings which are subject of a live notice, continuing to monitor the live notices and maintain public safety.
