

Good Morning,

I am writing this email in regards to an application which has been made from 4 Clunie Place in regards to obtaining an off sales licence.

This is really worrying considering this shop has already had a rejection twice now for selling vapes majorly due to selling to under aged customers back in June/July 2024.

This same shop appears to be moving premises next door in order to hopefully get this licence without realising they have already been refused.

I have also noticed this shop is opening at unreasonable hrs and there are often young boys leaving this shop through the nights. I really do not know what they are doing from this shop.

If it was granted for them to sell alcohol; this would cause a great deal of problems to the community, therefore I am hoping this premises request is objected once again.

The other concern to this application is that they have requested this in a different name; which makes me presume they are hoping this goes unnoticed.

I'm afraid I do not support this application and I'm sure most of the community would agree, we already have a local shop which provides and obeys the law, therefor this application is really not required.

Kind Regards,
Cara
